

Ample open spaces, sumptuous shows, highly effective installations: meet Cinema. Our careful research into materials has led to the creation of extremely robust profiles capable of sustaining a base size of up to 24m. The screen has been further improved with the inclusion of structural bars every 4 or 5m, increasing the stability of the inner structure. Even the fabric-anchoring system has been redesigned to make assembly operations quicker and simpler: a very important aspect when mounting such imposing screens. To lend the frame a modern look and to ensure it harmonises with its surroundings, the aluminium frame is completely enveloped in the fabric, which is fastened directly to the frame via a new anchoring system. Cinema can be equipped with front-projection surfaces of the Adeo Screen range which, in products of this size (base width from 7 to 24 m), are welded vertically.

Elastic stretchers for an optimal tensioning and an easy installation of the projection surface ▲

See page **100**  
for Technical data

### Projection Surfaces (see page 6)

- > Reference White 2 / Reference Grey 2 / Reference White 2 Acoustik / Reference Grey 2 Acoustik
- > Ambient Grey / Ambient Grey 2 Acoustik
- > Vision White / Vision White Pro
- > Vision Acoustik / Vision Macro Acoustik

### Standard Accessories

- > Kit with wall-mount brackets
- > Kit containing elastics stretcher and fabric angles (for precise finishing) for the assembly of the surface
- > For the assembly of the frame: angles, joints and stiffeners complete with screws and nuts

### Optional Accessories

- > Kit brackets for installation on aluminium truss
